

Predetermination Reviews

Fax clinical information to 1-833-719-1603.
Precertification is required if procedure
is performed in an inpatient setting.

Manual predeterminations will be provided for the following services:

- Automatic External Defibrillator – K0606
- Implantable Defibrillator – 33270, 33271, 33272, 33273, 33274, 33275
- Mobile Cardiac Outpatient Telemetry (MCOT) – 93228, 93229

Predetermination requests for procedures not on list:

If a provider submits a predetermination request for a procedure not on the list, we will notify him or her that we do not offer a predetermination for that service.
